From Vice-Chancellor's Desk

It is a matter of immense pleasure for me to be a part of Rajasthan University of Veterinary & Animal Science, Bikaner as its Vice Chancellor. RAJUVAS has made all-round progress in a short span of its establishment and has become a leading university. RAJUVAS has celebrated his 8th convocation recently to honor graduate and post graduate students. Convocation is a mega academic event in the calendar of an Institution of learning. It is a vital landmark in the career span of a student and indeed everyone connected with the pursuit of knowledge in the University. Hon'ble Governor, Rajasthan Shri Haribhau Kisanrao Bagde emphasis in his speech about importance of animal husbandry in state of Rajasthan. Hon'ble governor inspired the students to use their acquire knowledge and skill for welfare of farmers and livestock and contribute nation development. Hon'ble also emphasis on both physical as well as mental development along with women empowerment in all sectors. I am happy to share that RAJUVAS has made remarkable progress in terms of quality education, need base research and skill development of farmers and youth. Veterinary Medicine is one of the most noble professions in the service of animals, as we get opportunity to take care of those who can't communicate their problems. Besides providing food, domestic livestock also contributes for hides, draught power and organic manure and has emerged as an important source of income and employment generation of millions of people, and veterinarians have played a key role in its development. Veterinarians have a very wide canvass of jobs to choose, such as pharmaceutical and biotechnology industry, feed industry, meat industry, dairy industry, diagnostics and vaccines, contract research services, lab animals, environmental consultant, zoo and wildlife, higher education, research institute of ICAR, ICMR, CSIR, DBT, DST, ICFR etc., defense services (RVC, BSF, ITBP etc.), civil services, science writers, municipal corporations and other regulatory authorities. A large number of veterinarians opt for private practice and many are going overseas for higher education, research and other areas including private practice. I encourage our students to explore these dynamic career paths, where they can make tangible difference in improving livelihood and promoting sustainable entrepreneurship in livestock sector.

Let us continue work together to harness the potential of animal husbandry sector, paving the way for more prosperous future.
With best wishes,

Dixit
(Manoj Dixit)
Vice-Chancellor

Academic Activities

Eighth Convocation of RAJUVAS

Eighth convocation of the RAJUVAS, Bikaner was organized on 15th April 2025. Hon'ble Governor and Chancellor Shri Haribhau Bagde awarded 515 students of B.V.Sc. & A.H. with degrees and 8 with gold medals, 1 silver and 1 bronze medal. His Excellency the Governor encouraged the students to plant a tree in the name of Guru Dakshina. The guest of the ceremony, Prof. Nitin V. Patil, Vice Chancellor, MAFSU, Nagpur while congratulating the students said that the glorious history of CVAS, Bikaner is well known. By focusing on a single health approach, integrated research on agriculture and animal husbandry subjects and transfer of new discoveries and technologies. Chief Guest Shri Joraram Kumawat, Hon'ble Minister Animal Husbandry, Dairy and Devasthan Department, GOR said that the state government is committed to benefit the animal husbandry through various schemes. The state government has launched the "Mukhyamantri Mangala Pashu BimaYojana" for which the work of insurance is currently going on at a fast pace. Along with the "Mobile Veterinary Units" of the State Government, the department is running vaccination programs to prevent various types of diseases in the entire state. While presenting the progress report of the university, Vice Chancellor Acharya Manoj Dixit gave a brief account of education, research and extension and administrative activities of the university. The Vice Chancellor mentioned the ultramodern medical facilities provided to the livestock farmers by the university and provided information about the research projects approved by ICAR and state budget and mentioned the promotion of teachers. On this occasion, a book stall of RAJUVAS was also set up. Books written by the university teachers were also presented to the Honorable Governor. The convocation ceremony was broadcast live on the university website, Facebook page and YouTube. At the beginning of the ceremony, 1 Raj. R. & V. N.C.C., Bikaner gave a guard of honor on the arrival of the Honorable Governor and Chancellor.

Release of Publications

The new issue of the University Newsletter published by Convenor Public Relations Cell Dr. Devi Singh along with the one-year progress booklet of the University "RAJUVAS: Disha Drishti and Achievements" were released by the Hon'ble Governor and Chancellor during eighth convocation of RAJUVAS. Moments of Pride

Patent Received on Technical Improvement in the Structure of Traditional Bullock Cart

The design related to technical improvement in the structure of traditional bullock cart by the Engineering and Technology Center of RAJUVAS, Bikaner was granted patent by the Patent Office, Government of India. This design has been jointly developed by the Center's Principal Investigator, Dr. Diwakar Chaudhary and Dr. Ashok Dangi. In this new design, the bulls have to only pull the load, while the work of carrying the load is done by shocker and tire mechanism. Due to this structural change, not only will the physical fatigue of the bulls be reduced, but neck related problems often seen in traditional bullock carts will also be avoided. Vice Chancellor Acharya Manoj Dixit congratulated all the concerned officials for getting the patent.

Development of 3D Printed Model

Vice Chancellor RAJUVAS, Bikaner, Acharya Manoj Dixit inspected Engineering and Technology Center for Animal Sciences, Bikaner on 05th June, 2025. Vice Chancellor Acharya Manoj Dixit observed the 3D printed models developed by the center, which can be used in place of carcass (animal body) to give practical knowledge of animal anatomy and animal surgery to the students studying in veterinary science. Director Research Prof. B.N. Shringi, Dean PGS Prof. Rajesh Kumar Dhuria, Director Clinics Prof. Praveen Bishnoi, center in-charge Dr. Diwakar Chaudhary, Dr. Ashok Dangi, Dr. Abhishek Gupta, Dr. Javed Akhtar were present during the program.
